Air & Gas Compressor and Parts

# AFTERCOOLER KIT

---

## 2906010900

The 2906010900 Maintenance Kit is designed to support the routine service requirements of the compressor by ensuring reliable sealing, stable performance, and protection of internal components.

### Function of the 2906010900 Kit

Restore Compressor Performance.

Maintain Sealing Integrity.

Protect Critical Components.

Support Preventive Maintenance Cycles.

Improve Efficiency & Reduce Costs.

# TECHNICAL SPECIFICATION

Parameter	Typical Value / Range
Component Type:	Aftercooler kit(2906010900)
Components in the kit:	Gasket, Seal washer, Lock washer and O-Ring.
Primary function:	Provides all necessary consumables required during periodic service intervals, avoiding unplanned shutdowns and ensuring compliance with maintenance schedules.
Function:	The kit ensures efficient and reliable compressor operation by replacing wear-prone components. It restores performance, maintains internal sealing, and protects critical parts from friction, heat, and contamination during scheduled servicing.
Improves:	Replaces degraded parts to restore the compressor's original efficiency, airflow, and pressure stability.
Prevention:	Prevent the system.

## **Technical support 24/7**

We offer 24/7 technical support to ensure quick assistance whenever needed. Our team is always ready to help with product setup, troubleshooting, and urgent service requests.

## **Consultation**

Need help choosing the right product? We provide expert consultations to guide you through selection, technical compatibility, and project-specific requirements.  
Warranty

## **Product Warranty**

All parts come with a minimum warranty against all manufacturing defect. We guarantee the quality and reliability of every product supplied.
