Air & Gas Compressors and Parts

# GEAR BOX KIT

---

## 2906059000

The 2906059000 kit plays a key role in scheduled service cycles, helping technicians restore the compressor quickly and efficiently. With the right seals on hand, maintenance becomes predictable and breakdowns become rare.

### Function of the 2906059000 Kit

Restore Compressor Performance.

Maintain Sealing Integrity.

Protect Critical Components.

Support Preventive Maintenance Cycles.

Improve Efficiency & Reduce Costs.

# TECHNICAL SPECIFICATION

Parameter	Typical Value / Range
Component Type:	Gear box kit(2906059000)
Components in the kit:	Bearings, O-Ring, Bushing, Shaft seal and Bolt.
Primary function:	The 2906059000 Service Kit is designed to maintain the reliability and efficiency of the compressor by restoring sealing integrity, preventing leakage, and ensuring smooth mechanical operation.
Function:	Enhance Operational Efficiency By restoring correct sealing and system balance, the kit helps: Maintain optimal compressor efficiency.Reduce energy loss from air leaks.Optimize lubrication performance
Improves:	Prevent contamination ingress Reduce wear on moving parts Protect oil circuits and compressed-air pathways
Prevention:	Prevent the system.

## **Technical support 24/7**

We offer 24/7 technical support to ensure quick assistance whenever needed. Our team is always ready to help with product setup, troubleshooting, and urgent service requests.

## **Consultation**

Need help choosing the right product? We provide expert consultations to guide you through selection, technical compatibility, and project-specific requirements.  
Warranty

## **Product Warranty**

All parts come with a minimum warranty against all manufacturing defect. We guarantee the quality and reliability of every product supplied.
